

ROEX[®]

HYALURONIC ACID

JOINT SUPPORT AND MORE*

What is Hyaluronic Acid?

Hyaluronic Acid is a special protein occurring naturally throughout the human body. It is a key component of collagen and is important for the health of the skin, joints and eyes.*

What is Hyaluronic Acid's function in the body?

One of Hyaluronic Acid's functions is to bind to water and lubricate movable parts of the body, such as the joints and muscles. Since it is one of the most hydrophilic molecules in nature, Hyaluronic Acid is often described as "nature's moisturizer." Hyaluronic Acid also helps maintain smooth, elastic skin since it effectively holds water in the skin.*

What factors influence Hyaluronic Acid levels in the body?

Genes are likely to be a factor, but there are also nutritional and environmental factors that are known to have an impact, including zinc and magnesium availability. Cigarette smoke is an environmental factor that can degrade your body's natural supply of Hyaluronic Acid.

Age is a natural factor that affects the body's supply of Hyaluronic Acid. As we age, our body produces less and less Hyaluronic Acid and it is very difficult to replenish. As a result, supplementation becomes a necessity – Roex[®] Hyaluronic Acid and Chicken Sternal Collagen Type II are two superior formulas designed to nutritionally support joint function and maintain healthy cartilage tissue.*

How will Roex[®] Hyaluronic Acid support joint function?

Roex[®] Hyaluronic Acid will help lubricate the joints and help to cushion the joint cartilage by nutritionally assisting the body where it is lacking - namely, it's natural production of hyaluronic acid.*

Will Roex[®] Hyaluronic Acid help you? Yes, it certainly will, especially in the long run. Taking Roex[®] Hyaluronic Acid may help optimize the body's levels of Hyaluronic Acid despite its natural decline in production. It will also counteract the daily abuse to the joints, caused by a lack of viscosity in joint fluid. Roex[®] Hyaluronic Acid provides support for all connective tissues in the body.*

Hyaluronic Acid

Supplement Facts

Serving Size: 1 Vegetable Capsule
Servings Per Container: 60

	Amount Per Serving	%DV
Hyaluronic Acid (as Sodium Hyaluronate)	50 mg	*

*Daily Value (DV) not established

Directions: Take one (1) capsule, twice daily 20 minutes before eating.

Other Ingredients: Vegetable capsules, cellulose, magnesium stearate and silicon dioxide.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
