

K2+ Supercharged Complex

The Benefits are Vast

Roex[®] Vitamin K2+ is a complex that includes Vitamin K1, MK4 (K2) and MK7 (K2). Your body needs all 3 to promote blood health, support the cardiovascular system, assist with healthy skin development, and improve bone health.*

Vitamin K

Vitamin K is a transporter of calcium, delivering it the proper destination points throughout the body. Nearly all of the body's calcium is stored in the bones, however muscle cells and blood also contain calcium. Calcium is essential for many of the body's functions such as the formation of bones and teeth, muscle contraction (think your heart), normal enzyme function, blood clotting, and normal heart rhythm.

Vitamin K1:

Vitamin K1 helps the body with healthy blood clotting. That's what makes us stop bleeding and begin to heal after we cut ourselves.

K2:

Vitamin K2 is essential to good health and the benefits that may be observed through daily servings are numerous.

Vitamin K2 is a two-parter: Quicker acting K2 (Mk4) and longer acting K2+ (MK7).

- As is with all the K vitamins, Vitamin K2 is fat-soluble which means it must be taken with a regular diet of healthy fats.
- Vitamin K2 is absorbed more easily than other forms of Vitamin K. Because it stays in the body longer, it may provide more benefits by allowing the body to utilize it fully.
- Vitamin K2 is naturally produced by bacteria in the intestines, so good gastrointestinal health is essential to maintaining a good supply.
- Vitamin K2 is essential to the production of osteocalcin which is, in turn, necessary for the absorption of calcium into the bones. This process also keeps the calcium from escaping out into the body and storing in places it shouldn't be.

Roex's powerful new vitamin supplement, **K2+ Supercharged Complex** is a complex foundation that includes MK7, MK4 and K1.

Your body needs all 3 to support a healthy cardio-vascular system as well as promote healthy blood, skin, and bones.*

Be aware. Compare!

All K2+ supplements are not created equal.

There are lots of K2 products out there. But they are not as powerful as they could be. Read the ingredients and the potency on the labels.

"Our K2+ Supercharged Complex contains 5X more Vitamin K than other K2 products I found in the market," says Rod Burreson, founder of Roex. (Amount per serving: 2500mcg.)

Roex K2+ Supercharged Complex is formulated with the highest quality ingredients available and combined for appropriate strength and maximum efficacy.

The Benefits of K2+ Supercharged Complex:

- Promotes blood health*
- Promotes proper blood clotting*
- Assists with healthy skin development*
- Improves bone health*
- Supports the cardiovascular system*

Roex's K2+ Supercharged Complex has Vitamin K1, MK-4 (K2), and MK7 (K2). **You need all three!**
